The Oregon Association for Home Care was founded over 50 years ago to represent providers of skilled home health, hospice, in-home care, IV therapy, respiratory therapy and home medical equipment services throughout the state of Oregon.

Today, we continue that work by fulfilling our mission to support and assist our members in the delivery of high value home-based health care in our communities through advocacy, education and services.

OREGON ASSOCIATION for HOME CARE

Advocacy

OAHC is committed to advocating on behalf of all of its members and all home-based health care providers in Oregon. Our Executive Director and lobbyist, Sabrina Riggs has expertise at the local, state and federal level, providing unprecedented legislative access and insider knowledge of regulatory processes to OAHC's members.

For over 50 years, OAHC has served as a respected and valued voice for home-based health care in Oregon, advocating on behalf of the industry directly to local, state and federal representatives. OAHC works directly with the Oregon Health Authority, Oregon Department of Human Services, Oregon's Rural Health Coordinating Council, OR-Occupational Safety and Health Administration (OSHA) and other relevant boards and committees on a state and national level. OAHC also provides opportunities for members to engage in these advocacy efforts and speak on behalf of the industry through committee membership and our online Legislative Action Network.

OAHC's focus is on state specific issues and regulations that impact providers and patients in Oregon. Being engaged at this level is critical to keeping members informed, in business, and able to continue to provide vital care and services to patients in our communities. It's because of members like you that has allowed OAHC to have a long history of fending off negatively impactful legislation and regulations to keep our industry strong and at the forefront of conversations on the value and benefit of home care.

Supporting your state association not only helps you be successful but also ensures that services and care are available to all Oregonians who need it!

Advocacy

State Legislative Champions!

During the 2023 legislative session, OAHC was successful in:

- Removing home health from the disastrous nurse staffing bill, HB 2697 - a bill that would have exacerbated home health's capacity issues, forced many home health agencies to close their doors, reduce access to care, and impose significant penalties on agencies that didn't comply
- Engaging in employment issues, advocating for legislation to allow employers to offer retention bonuses, and addressing workforce shortages
- Working with OR-OSHA and other state agencies to repeal the COVID-19 rules and ensure regulation changes are reasonable and fair for providers.

National Representation

OAHC is a member of two national organizations representing home care - National Association for Home Care & Hospice (NAHC) and Council of State Home Care and Hospice Associations (Council). As a member of NAHC, OAHC is able to pass along many of its membership benefits as well as access experts and resources to help address issues members are facing. OAHC staff serve on NAHC's Forum of States and works in collaboration with NAHC and other states on issues impacting home health and hospice in Congress.

The Council provides an opportunity for all state association executives to network and share best practices in association management, discuss issues of advocacy for home care on the state and national levels, collaborate on shared projects, and network about the home care industry. OAHC members will have access to many of the benefits offered by the Council.

Membership Benefits

Communication & Industry Updates

OAHC provides regular and timely updates to members on regulatory changes and legislative updates to help them navigate the changing home-based health care landscape. The OAHC listserv, electronic notifications and quarterly legislative and regulatory updates are designed to keep you and your staff informed and up to date on changing policies that impact your ability to meet the home-based health care needs of the many Oregonians you serve.

Education

OAHC regularly provides workshops, webinars and conferences to facilitate continuing education and professional development for home-based health providers and staff. Members receive discounts on these education opportunities, all of which are designed to help providers streamline their operations, develop efficiencies and stay up to date on changing regulations and policies and current issues, industry trends and developments. Included with membership is unlimited access to the RCTCLearn.Net online database of education at no additional cost.

Networking & Information Resource

One of the most important benefits of OAHC membership is first-hand access to information-sharing among OAHC members, staff and leadership. Our Board of Directors, Regulatory & Legislative Affairs Committee (RLAC) and OAHC staff are a great resource for information on the latest issues impacting the industry and are available to answer member questions about changing policies and regulations. The members only section of the OAHC website also offers up-to-date information, tools and resources, NAHC Forum reports, dashboard reports, and access to the members only listserv and forum, where members can engage in information-sharing about issues impacting their organizations and the industry at large.
