ways. Come and enjoy a wonderful dinner, learn to play poker by trained professionals and help raise money to
pay for top-notch educational speakers at OAHC sponsored events year round by bidding on items during the
OAHC silent auction. This is definitely an event you don’t want to miss! RSVP Required! RSVP to attend the
OAHC dinner and casino night

The Keys to Orchestrating Top Performance
Pre-Conference - April 20th
Striking the Perfect Chord in Complying with the New COPs
- Cindy Kraft, PT, MS, President, Kometti & Kraft Health Care Solutions

Harmonizing Transitions & Risk: Successful Arrangements of Value, Risk and Bundled Care
Medicare and Medicaid initiatives are rapidly transforming the environment from rewarding volume to rewarding value. Providers that are unprepared for this coming tidal wave may find themselves on the outside looking in as networks are narrowed and expectations for improved outcomes and lowered costs rapidly evolve. This thought-provoking session will explore the implications of the growth in value-based purchasing in Medicare for service programs, initiatives such as bundling and accountable care organizations; and recently mandated value-based payment demonstrations for joint replacement and home health value-based purchasing. Participants will learn to sing the tune of value-based arrangements and orchestrate strategies to flourish in the symphony of new incentives.

The Perfect Ensemble: Maximizing Your Data to Achieve Performance Improvement
With the introduction of Home Health Star Ratings in 2015 and HHCAPS Star Ratings and VBP in 2016, quality and performance improvement are now front and center as priorities for most Home Health agencies. Join Douglas Bailer of SHP as he discusses the increasing importance of quality in home health and strategies for using your data to improve processes and quality.

Finding the Keys to Home Care Success: Best Practices Professional Roundtable Exchange
Join us for our very first interactive roundtable discussion session at this year’s conference. This session is designed to promote and encourage networking amongst your peers and engage in lively informal discussion about topics that are keeping you up at night. Come share your frustrations, solve problems, and glean practical advice and best practices from those in your field. This is your opportunity to interact one-on-one with your peers to make sure you walk away with the answers that you are seeking.
Here’s how it works! Each table will have a sign indicating the Roundtable Topic being covered. Attendees will pick a topic of interest and sit down at the table. The table moderator will provide a quick introduction and overview of the topic, and then open up the floor for Q&A. This is a “rapid fire” session and every 20 minutes we will ask attendees to move to another topic table while the moderator welcomes a new batch of attendees.
Don’t forget to bring your business cards! All attendees are encouraged to handout their business cards to others who they can call on for help.
A finalized list of topics and moderators will be provided at the conference. Topics may include National and State Advocacy, Performance Improvement, Operational Improvement, Staff Recruiting/Retention Challenges; Survey; Hospice Payment Reform, Home Health Payment Reform, Therapy.

Advocacy in Concert: Challenges, Risks and Opportunities Facing Home Healthcare
This presentation will provide an overview of the significant challenges, risks, and opportunities that face home healthcare today and will reveal the proven strategies that home health advocates can use to stabilize funding and secure patient access to home healthcare. \"Spanning the full range of effective advocacy - Policy, Positioning, and Pursuit - this session will provide examples and tips on how even the smallest healthcare sectors can have an enormous impact on legislative and regulatory policy at the state and federal levels of government.\"
