NOTE: The agenda may change during the final planning stages. Please check the OAHC conference page for updates.

Session Descriptions

“Becoming a Home Care Hero: The Four Processes of Motivational Interviewing”

The conversations that occur between helping professionals and their clients are powerful ones, capable of supporting or inhibiting the innate change process that is alive in all of us. Learn to make your interactions with clients more satisfying and effective using The Four Fundamental Processes of Motivational Interviewing (MI): Engaging, Focusing, Evoking, and Planning. Dana will explore each of these four processes in depth, and you’ll leave with at least three new ideas to incorporate into your practice.

Objectives:

- Describe the four processes of Motivational Interviewing (MI): Engaging, Focusing, Evoking, and Planning
- Ask change talk focused questions to elicit intrinsic motivation for change

“Value Based Purchasing: Functional Scores and Best Practices”

Outline the 5-year HHVBP demonstration and impact on 9 participating states. This session will detail the changes to the HHVBP in the last 2 years of the demonstration. In addition, we will analyze how the HHVBP model affected outcomes for everyone.

- Review the structure to the HHVBP that ended in 2020
- Review the changes to the measures included in HHVBP
- Detail the functional M1800 items included in the Composite Mobility Measures
- Evaluate the best clinical practices for getting the best outcomes.
- Review what agencies should do to prepare for nationwide rollout

“Oregon Health Authority State Hospice Update”

In this session, OHA will provide a hospice update including the new hospice rulemaking and palliative care rules.

“Value Based Purchasing: HHCAHP Survey and Best Practices”

This session will review the exact groupings and specific questions from the HHCAHP survey that will impact the nationwide rollout of VBP. This session will also look at the calculation of Achievement & Improvement scores utilized in VBP calculations and how they apply to HHCAHP scores.

- Detail the calculation for Achievement and Improvement in VBP
- List the exact HHCAHP Survey questions that are included in the VBP calculations
- Evaluate the best practices for getting the best outcomes with HHCAHP surveys
- Review what agencies should do to prepare for nationwide rollout in regard to HHCAHP

“MAC Hospice Update” (virtual)

We’ve invited NGS to present a virtual hospice update including updates on ADRs and targeted probe and educate. This session has not been confirmed and will be updated closer to the conference.

“Value Based Purchasing: Claims Data and Best Practice”

This session will review the current measures and the newest outcome measure that will be utilized in calculating the claims-based measure outcomes in VBP. This session will also look at the calculation of the overall Total Performance scores & the Linear Exchange Function utilized in VBP calculations and how they are impacted by the claims-based scores.

- Detail the calculation for Total Performance Score in VBP
- Detail the calculation for the Linear Exchange Function in VBP
- List the exact items used in calculating the claims-based measures in VBP calculations
- Evaluate the best practices for getting the best outcomes with claims-based measures
- Review what agencies should do to prepare for nationwide rollout in regard to claims-based measure

“Finding and Keeping Home Care Heroes: Why Workforce Matters”

This presentation is based on the premise that a competent, well-trained staff is key to successful operations and quality outcomes for home health and home care agencies in Oregon and across the country. Dr. Stone will provide an overview of the state and national home health/home care landscape, highlighting current and future projections of agency growth and the demand for and supply of staff, particularly nurses and home care aides. This will be followed by a discussion of the key policy and workforce development challenges to this growing care sector, including the lack of quality education and training and barriers to recruitment and retention of staff at all levels. The presentation concludes with examples of best practices—both evidence-based and promising—that can help agencies address the challenges and take advantage of the opportunities for growth and success.

“In-Home Behavioral Health”

An overview of in-home behavioral health services and supports provided by a large community behavioral health center. Learn what services can be provided in the home especially for seniors, and hear about day-to-day practicalities of funding and regulatory barriers, staff safety, and workforce issues. Examples of in-home services provided outside Oregon will be provided.

“Best Practices: Professional Roundtable Exchange”

Stick around for our annual interactive roundtable discussion session! We’ve designed this session to promote and encourage networking amongst your peers and engage in lively informal discussion about topics that are keeping you up at night. Come share your frustrations, solve problems, and glean practical advice and best practices from those in your field. This is your opportunity to interact one-on-one with peers to make sure you walk away with the answers you are seeking.

Here’s how it works! Each table will have a sign indicating the roundtable topic being covered. Attendees will pick a topic of interest and sit down at the table. The table moderator will provide a quick introduction and overview of the topic, and then open the floor for Q&A. This is a “rapid fire” session and every 20 minutes we will ask attendees to move to another topic table while the moderator welcomes a new set of attendees.

Don’t forget to bring your business cards! All attendees are encouraged to exchange business cards to others who they can call on for help.

“State of the Industry Update”

This session will provide an update on state and federal issues affecting our industry.
